CAPITAL MANAGEMENT COMITTEE AGENDA

DATE: TUESDAY, MAY 28, 2024

TIME: 3:00 P.M.

PLACE: CONFERENCE ROOM LINDBERGH, ORLANDO INTERNATIONAL AIRPORT, ONE JEFF FUQUA BOULEVARD

For individuals who conduct lobbying activities with Aviation Authority employees or Board members, registration with the Aviation Authority is required each year prior to conducting any lobbying activities. A statement of expenditures incurred in connection with those lobbying instances should also be filed prior to April 1 of each year for the preceding year. Lobbying any Aviation Authority Staff who are members of any committee responsible for ranking Proposals, Letters of Interest, Statements of Qualifications or Bids and thereafter forwarding those recommendations to the Board and/or Board Members is prohibited from the time that a Request for Proposals, Request for Letters of Interests, Request for Qualifications or Request for Bids is released to the time that the Board makes an award. The lobbyist shall file a Notice of Lobbying (Form 4) detailing each instance of lobbying to the Aviation Authority within 7 calendar days of such lobbying. Lobbyists will also provide a notice to the Aviation Authority when meeting with the Mayor of the City of Orlando or the Mayor of Orange County at their offices. The policy, forms, and instructions are available on the Aviation Authority's offices web site. Please contact the Chief Administrative Officer with questions at (407) 825-7105.

- I. CALL TO ORDER
- II. ROLL CALL
- III. ANNOUNCEMENTS
- IV. CONSIDERATION OF CAPITAL MANAGEMENT COMMITTEE MINUTES FOR SEPTEMBER 28, 2023
- v. CONSENT AGENDA
 - A. Recommendation to Update the Fiscal Year 2024-2029 Capital Improvement Program for Orlando International Airport (MCO)
 - B. Recommendation to Update the Fiscal Year 2024-2029 Capital Improvement Program for Orlando Executive Airport (ORL)

On **THURSDAY**, **September 28**, **2023**, the **CAPITAL MANAGEMENT COMMITTEE** of the Greater Orlando Aviation Authority met in Conference Room Lindbergh of the Greater Aviation Authority offices in the main terminal building at the Orlando International Airport (MCO), One Jeff Fuqua Boulevard, Orlando, Florida. Chairman Thibault called the meeting to order at 2:00 p.m. The meeting was posted in accordance with Florida Statutes and a quorum was present in the room.

Committee Members Present: Kevin J. Thibault, Chairman

Max Marble, Senior Vice President Capital Programs

Thomas W. Draper, Chief of Operations

Also present: Kathleen M. Sharman, Chief Financial Officer

Dan Gerber, Interim General Counsel, Rumberger Kirk Karen Ryan, Nelson Mullins Riley & Scarborough

Rob Brancheau, Anser Advisory Kasie Berube, Recording Secretary

For individuals who conduct lobbying activities with Aviation Authority employees or Board members, registration with the Aviation Authority is required each year prior to conducting any lobbying activities. A statement of expenditures incurred in connection with those lobbying instances should also be filed prior to April 1 of each year for the preceding year. Lobbying any Aviation Authority Staff who are members of any committee responsible for ranking Proposals, Letters of Interest, Statements of Qualifications or Bids and thereafter forwarding those recommendations to the Board and/or Board Members is prohibited from the time that a Request for Proposals, Request for Letters of Interests, Request for Qualifications or Request for Bids is released to the time that the Board makes an award. The lobbyist shall file a Notice of Lobbying (Form 4) detailing each instance of lobbying to the Aviation Authority within 7 calendar days of such lobbying. Lobbyists will also provide a notice to the Aviation Authority when meeting with the Mayor of the City of Orlando or the Mayor of Orange County at their offices. The policy, forms, and instructions are available on the Aviation Authority's offices web site. Please contact the Chief Administrative Officer with questions at (407) 825-7105.

CONSIDERATION OF CAPITAL MANAGEMENT COMMITTEE MINUTES FOR JULY 18, 2023

1. The Capital Management Committee (Committee) consensed to accept the meeting minutes of July 18, 2023, as written.

RECOMMENDATION TO UPDATE THE FISCAL YEAR 2021-2028 CAPITAL IMPROVEMENT PROGRAM FOR ORLANDO INTERNATIONAL AIRPORT (MCO)

2. Ms. Sharman presented the item.

Discussion ensued with regard to the proposed changes to the MCO Capital Improvement Program, and the Committee considered the following:

- The Committee could choose to agree with staff's recommendation and authorize staff to implement the proposed changes to the MCO Capital Improvement Program as described on Exhibit 1 of the memorandum; or
- 2) The Committee could choose to delete/add/change the proposed projects and/or funding sources.

The Committee consensed to recommend to the Aviation Authority Board to: (1) approve the update of the Orlando International Airport Fiscal Year 2021-2028 Capital Improvement Program as presented in the memorandum; (2) grant permission to the Chief Financial Officer to

subsequently update the Capital Improvement Program, within an immaterial effect on financial metrics, based on anticipated final adjustments to the Terminal C - Phase 1 and Terminal C - Phase 1X programs; (3) authorize staff to update the Joint Annual Capital Improvement Program based on the update to the Fiscal Year 2021-2028 Capital Improvement Program.

RECOMMENDATION TO UPDATE THE FISCAL YEAR 2022-2028 CAPITAL IMPROVEMENT PROGRAM FOR ORLANDO EXECUTIVE AIRPORT (ORL)

3. Ms. Sharman presented the item.

Discussion ensued with regard to the proposed changes to the ORL Capital Improvement Program, and the Committee considered the following:

- The Committee could choose to agree with staff's recommendation and authorize staff to implement the proposed changes to the ORL Capital Improvement Program as described on Exhibit 1 of the memorandum; or
- The Committee could choose to delete/add/change the proposed projects and/or funding sources.

The Committee consensed to recommend to the Aviation Authority Board to: (1) approve the update of the Orlando Executive Airport Fiscal Year 2022-2028 Capital Improvement Program as presented in the memorandum; and (2) authorize staff to update the Joint Annual Capital Improvement Program based on the update to the Fiscal Year 2022-2028 Capital Improvement Program.

ADJOURNMENT

There being no further business to be considered, Chairr	nan Thibault adjourned the meeting at 2:13 p.m.
Kasie Berube	Kevin J. Thibault
Recording Secretary	Chairman

MEMORANDUM

TO: Members of the Capital Management Committee

FROM: Kathleen M. Sharman, Chief Financial Officer

DATE: May 28, 2024

ITEM DESCRIPTION

Recommendation to Approve the Fiscal Year 2024-2029 Capital Improvement Program for Orlando International Airport (MCO)

BACKGROUND

A New Era Has Begun:

Phase 1 of Terminal C is complete and financially closed as of May 2024. The Aviation Authority completed its latest Strategic Plan update in September 2023. The vision, mission and goals of the Strategic Plan provide the guiding principles for this new Capital Improvement Program (CIP).

CIP is modular and demand driven:

The CIP is a multi-year plan of major capital projects linked to the Aviation Authority's strategic goals that establishes target years for implementation of projects and associated expected funding sources. The projects are developed to address airport capacity, asset preservation, and safety and security as well as the demand for air service to Central Florida. At least annually, the Aviation Authority evaluates and updates the CIP to ensure resources are allocated in the most effective, efficient, and appropriate manner to manage capital needs and evolving funding priorities for Orlando International Airport. As a working plan, the CIP will periodically be modified to accommodate demand-driven traffic activity as well as changes to economic and regulatory conditions, which could result in increases or decreases to the costs of the CIP or to accelerate or extend the timing to complete certain improvements.

Recent Focus (2015-2023) Delivering Phase 1 of Terminal C:

Since 2015, a considerable amount of attention within the CIP has been dedicated to the South Terminal, as those projects constituted a significant portion of the Authority's capital program during the last nine years. The current CIP, which was approved in October 2023, was adopted approximately one year after the opening of the initial phase of Terminal C. Now that Terminal C is open and in operation, a new era has begun. In this new CIP, the original Terminal C program will be retired from its prominent position in the CIP and new programs will be introduced. Thus, this document essentially represents a new CIP for the Aviation Authority.

A new 10-year Strategic Plan was completed and adopted by the Aviation Authority Board in Fall 2023. Accordingly, an update to the Master Plan is scheduled to commence later this year and take approximately two years to complete. In the interim, the Authority has conducted multiple advanced budget, schedule and scoping analyses to evaluate specific key projects across the spectrum of demand-driven capacity projects for the Orlando International Airport. These projects will address asset preservation, new terminal demand, rental car, baggage, parking, ground transportation and other airport projects to serve the growing MCO market.

ISSUES

The projects in the Authority's annual CIP will continue to be directed toward four major categories:

- 1. Asset preservation and replacement
- 2. New capacity
- 3. Customer service
- 4. Revenue enhancement

A particular challenge to any CIP for a mature facility is the balancing of needs of upgrading or replacing aging facilities, such as specific portions of the 43-year-old Airsides 1 and 3 and associated western half of the landside building, while concurrently providing new capacity to meet growing passenger demand. The approach to this CIP was to identify and evaluate projects and to model the projected impact on the Authority's financial metrics. In order to perform that analysis, a series of studies were conducted by the General Consultant from Fall 2023 through Spring 2024 for financial modeling purposes for capital projects that are contemplated to be needed during our planning horizon. Of these projects, the projects that were deemed time critical are proposed to be included in this new CIP. Examples of these projects are as follows:

- Rental Car Expansion and Public Parking Improvements
- Baggage Handling Systems
- North Terminal Renovations
- Site and Apron Improvements for Terminal C Phase 2
- Airfield Rehabilitation Projects
- Campus power upgrades

The development of the recommended June 2024 CIP for the years FY 2024-2029 is focused on (1) aligning the funding plans with the scope and budget estimates of all proposed capital projects; (2) removing the major Terminal C programs (STC-P1 and STC-P1X); (3) incorporating the results of the major planning studies which include well developed scope and budgets of new projects for this CIP and future CIPs; and (4) updating current project budgets to reflect the Aviation Authority's capital priorities and current construction market conditions.

Additional factors that are unique to this new CIP are a proposed Transportation Infrastructure Finance and Innovation Act (TIFIA) credit assistance loan which may be used to leverage CFCs to finance a large portion of the Consolidated Rent-A-Car (ConRAC) program. In addition, in order to successfully execute this CIP, updated business terms with airport tenants will be necessary for multiple programs including the ConRAC, baggage and North Terminal renovation programs as well as an increase to the CFC rate. The use of a proposed TIFIA loan for the ConRAC will offer significant financing benefits to the Aviation Authority in terms of managing the level of Customer Facility Charges (CFC) that would necessary to the support the nearly \$2.2 billion program. The extent and terms of the TIFIA loan will be addressed in the near term as part of the advancement of the program. The concurrent negotiations with our major tenant partners such as the rental car companies and airlines, for baggage and terminal projects, are underway and are estimated to be finalized over the next year.

The current CIP includes a \$40 million program for the 30% design of Terminal C Phase 2. Early scoping and scheduling studies are ongoing. To progress this program, the staff proposes adding a \$200 million program for Terminal C Phase 2 site and apron projects. This program is intended to make improvements to mass grading, the master drainage system, and apron and taxiway paving in direct support of the Phase 2 Terminal C expansion program. Upon completion, this program will result in usable aircraft parking areas to optimize hardstand operations at Terminal C and will easily transition into new gates that will come online as part of the future Phase 2 Terminal C program.

Proposed CIP Adjustments and Additions

The CIP process used to generate the information in this memo involved collecting proposed CIP adjustments from multiple stakeholders, including:

- Aviation Authority Executive Leadership
- Leadership of various Aviation Authority departments
 - o Engineering and Construction (Capital Program Delivery)
 - Multi-Modal Planning and Environmental
 - Information Technology
 - Security
 - Concessions
 - o Real Estate
 - Operations
 - Facilities
- Owner Authorized Representatives
- Financial Consultants
- Aviation Authority Committees
 - Capital Management Committee (CMC)
 - Construction Committee (CCM)
 - Procurement Committee (PCM)
 - Construction Finance Oversight Committee (CFOC)

The Aviation Authority Committee minutes were reviewed for actions that impact the CIP, as well as the Annual Budget process and ongoing funding changes that occur during the implementation of a program.

The effort has also included several meetings with the Federal Aviation Administration (FAA) and Florida Department of Transportation (FDOT) officials to seek additional funding and optimize funding opportunities for projects already included or proposed to be added to the CIP. In many cases, the availability of FAA and FDOT funding directly impacts the timing for advancing projects, such as airfield and apron projects which are largely grant funded.

The proposed adjustments to the CIP are reflected in Exhibit 1 and Exhibit 2. Exhibit 1 summarizes the overall proposed funding plan of the CIP while Exhibit 2 details the specific funding impacts of the proposed adjustments to the CIP. The recommended adjustments increase the current CIP of \$5.1 billion to a proposed CIP amount of \$5.4 billion. These adjustments are summarized in Table 1 and further explained as follows:

Table 1: Summary of Proposed Adjustments to the CIP (millions)

	Current	F	Proposed		Proposed
Description	CIP	CIF		Ad	justments
North Terminal	\$ 787.7	\$	1,687.8	\$	900.1
Terminal C - Phase 1	2,301.4		-		(2,301.4)
Terminal C - Phase 1X	532.2		-		(532.2)
Terminal C - Phase 2	40.0		240.0		200.0
Terminal C - Additional Projects	681.5		718.9		37.4
Airfield	196.9		238.7		41.8
Ground Transportation	381.1		2,322.6		1,941.5
Other	140.6		231.0		90.4
Total Proposed Adjustments to the CIP	\$ 5,061.4	\$	5,439.0	\$	377.6

Proposed North Terminal CIP Adjustments – Net increase of \$900.1 million

Adjustments to the North Terminal result from a combination of projects added and completed or deleted since the last update, major scope refinements and budget adjustments. These adjustments are summarized in Table 2, with additional details regarding reasons for adjustments reflected in Table 3. Table 4 summarizes the changes in funding sources associated with the proposed adjustments to the North Terminal CIP.

Table 2: North Terminal CIP Elements (millions)

Proposed Other Projects CIP Adjustments – Net increase of \$90.4 million

Adjustments to Other Projects result from a combination of projects added since the last update, and budget adjustments. These adjustments are summarized in Table 23, with additional details regarding reasons for adjustments reflected in Table 24. Table 25 summarizes the changes in funding sources associated with the proposed adjustments to the Other Projects CIP.

In support of the proposed CIP funding plan, the Aviation Authority will be required to issue a total of \$153.4 million in new PFC Bonds and \$2,589.9 million in new GARBs over the 5-year CIP timeline. Table 27 below summarizes the proposed future PFC Bond and GARB requirements.

Table 27: Future PFC Bond and GARB Funding Requirements (millions)

Description	PFC	Bonds	GARBs	Total
Funded	\$	9.9	\$ 106.9	\$ 116.8
Future		153.4	2,589.9	2,743.3

The Aviation Authority periodically updates project funding needs in the Joint Annual Capital Improvement Program (JACIP), used by the FAA and the FDOT to program airport development grants. FDOT has requested the next JACIP update, based on the most current information provided in the Aviation Authority's CIP, to be completed on or before June 26, 2024.

Upon approval of the CMC, Staff will enter funding requests into JACIP based on this proposed CIP. Staff will adjust the entries in JACIP as required to reflect the final board approved CIP.

ALTERNATIVES

- 1) The CMC could choose to agree with staff's recommendation and authorize staff to implement the proposed MCO CIP changes as described on Exhibit 1 and Exhibit 2. This option is recommended.
- 2) The CMC could choose to delete/add/change the proposed projects and/or funding sources.

FISCAL IMPACT

The net increase to the CIP is \$377.6 million including \$2,601.3 million of added projects, \$51.5 million of net project budget adjustments, \$652.7 million of major scope refinements and \$2,927.9 million of completed or deleted projects if all recommended adjustments are accepted. Key financial metrics associated with this funding plan are provided with this memo as Exhibit 3. The financial projections are based on the best information available at this time, successful negotiations of business terms with major tenants including airlines and rental car companies as well as securing a TIFIA loan as discussed in the Issues section of this memo. Staff is continuing to work towards optimizing funding sources and will provide updated financial metrics prior issuing new money bonds later this year.

RECOMMENDED ACTION

It is respectfully requested that the Capital Management Committee (1) recommend to the Aviation Authority Board to approve the Orlando International Airport Fiscal Year 2024-2029 Capital Improvement Program as presented in the memorandum; (2) grant permission to the Chief Financial Officer to subsequently update the Capital Improvement Program, with no change to the overall CIP budget, based on potential funding optimization scenarios that may result from the report of the airport consultant in connection with the new bond issuance; (3) authorize staff to submit a Letter of Intent (LOI) to the Build America Bureau for a TIFIA loan to assist with financing the ConRAC and (4) authorize staff to update the Joint Annual Capital Improvement Program based on the new Fiscal Year 2024-2029 Capital Improvement Program.

MEMORANDUM

TO: Members of the Capital Management Committee

FROM: Kathleen M. Sharman, Chief Financial Officer

DATE: May 28, 2024

ITEM DESCRIPTION

Recommendation to Update the Fiscal Year 2024-2029 Capital Improvement Program for Orlando Executive Airport (ORL)

BACKGROUND

The Capital Improvement Program (CIP) is a multi-year plan of major capital projects linked to the Aviation Authority's goals that establishes target years for implementation of projects and options for funding. The projects are derived from several plans produced by and for the Aviation Authority including the Master Plan and Pavement Management Plan which are developed to address airport capacity, asset preservation, safety and security and revenue generating projects. Unlike the Orlando International Airport, most revenue at ORL is generated from aviation and non-aviation ground leases on the airport site.

To obtain Federal Aviation Administration (FAA) or Florida Department of Transportation (FDOT) grants, all Florida airports enter projects in the Florida Department of Transportation's Joint Annual Capital Improvement Program (JACIP). The JACIP is updated based on the Aviation Authority's approved CIP. The ORL CIP was last approved by the Aviation Authority Board on October 18, 2023. The proposed \$31.2 million of adjustments to the CIP are reflected in Exhibit 1 and Exhibit 2. The recommended adjustments increase the current CIP of \$77.8 million to a proposed CIP amount of \$109 million.

ISSUES

The proposed projects included in the Fiscal Year 2024-2029 CIP reflect an austere list primarily concentrated on airfield projects that are candidates for FAA and FDOT funding. The aforementioned projects improve the airport's financial self-sufficiency and are ultimately the backbone of the airport's role as a reliever airport to the Orlando International Airport. Projects that are not able to be funded during the timeline outlined on the CIP will be deferred until grant funding is available. Funding for commercial property improvement projects, which must be funded entirely by Authority funds without the benefit of FAA and FDOT grants, are included in the CIP. These projects are important because approxiamtely 60% of ORL revenues are generated by non-aviation revenues such as the leasing of commercial property.

The proposed adjustments to the CIP are generally structured based on the following priorities:

1. Maximize funding from the FAA (including BIL funding) and the FDOT to fund eligibile runway, taxiway and apron rehabilitation projects based on Pavement Condition Index (PCI) assessments. The annual estimated share of BIL funding for ORL is as follows: \$295,000 for FY 2022, \$844,000 for FY 2023, and \$851,000 per year from FY 2024 - 2026; a total of approximately \$3.7 million.

- 2. Fund the highest priority commercial property improvement projects to maximize non-aviation revenue for ORL.
- 3. Fund airfield projects when matching grant funding is available.

Based on these priorities, the CIP has been formulated to address the following adjustments:

- 1. Rehabilitation of Runway 7-25, the project timeline has been adjusted from FY 2024-2025 to FY 2025-2026 based on recommendation of the FAA. The proposed budget increase was derived from an alternative estimate and analysis for the rehabiliation of the runway which includes increased inflation to better anticipate future market conditions.
- 2. Rehabilitation of Runway 13-31, the project timeline has been adjusted from FY 2025-2026 to FY 2026-2027 based on recommendation of the FAA. The proposed budget increase was derived from an alternative estimate and analysis for the rehabiliation of the runway which includes increased inflation to better anticipate future market conditions.
- 3. East Ramp Rehabilitation Phase 1a and Phase 1b, the project timelines have been adjusted from FY 2023 and FY 2025 to FY 2024-2025 to allow for the receipt of potential FAA and FDOT grants. The proposed budget increases were derived from a structural analysis and estimate for the rehabilitation of the ramp.
- 4. East Ramp High Mast Lighting, the anticipated timeline for this program has been adjusted to outside of the 5-year CIP timeframe and is therefore removed from the CIP.
- 5. Airfield Lighting and Signage Improvements will be addressed within the scopes of the runway and taxiway rehabilitation programs and is therefore removed from the CIP.
- 6. Taxiway A Rehabilitation, the project timeline has been adjusted from FY 2026-2027 to FY 2027-2028 to allow for the receipt of potential FAA and FDOT grants.
- 7. Runway 7-25 Centerline will now be funded out of the Operations and Maintenance budget and is therefore removed from the CIP.
- 8. Airport Markings Assessment will be addressed within the scopes of the runway rehabilitation programs and is therefore removed from the CIP.
- 9. Taxiway E Rehabilitation, a proposed addition to the CIP, is scheduled for FY 2028-2029.
- 10. Parallel Taxiway, a proposed addition to the CIP, is scheduled for FY 2029.
- 11. Generator Installation, the project timeline has been adjusted from FY 2024 to FY 2025 to allow for the receipt of a potential BIL ATP grant.
- 12. Master Plan Update, a proposed budget decrease, has been derived from an updated proposal from our General Consultant.
- 13. Fencing Upgrades, the anticipated timeline for this program has been adjusted to outside of the 5-year CIP timeframe and is therefore removed from the CIP.
- 14. Colonial Promenade Improvements, the project timeline has been adjusted from FY 2023-2028 to FY 2023-2025 to address potential near term development opportunities.

- 15. Roadway Improvements, the anticipated timeline for this program has been adjusted to outside of the 5-year CIP timeframe and is therefore removed from the CIP.
- 16. Airport Beacon, a proposed budget increase, is due to the receipt of an updated estimate which came in higher than originally anticiapted due to current market conditions.
- 17. OUC Infrastructure Improvements, a proposed addition to the CIP, is scheduled for FY 2025.
- 18. Stormwater Assessment, a proposed addition to the CIP, is scheduled for FY 2025.

There is proposed legislation currently under consideration which aims to increase the FAA federal share percentage of allowable project costs at non-hub and non-primary airports for fiscal years 2025 and 2026. If the proposed legislation is approved, the Aviation Authority seeks permission to optimize the CIP funding plans to incorporate this increase in FAA funds. Additionally, the Aviation Authority will reduce matching funds by an offsetting amount to ensure no change to the overall CIP budget.

ALTERNATIVES

The Aviation Authority Board could choose to agree with staff's recommendation and authorize staff to implement the proposed ORL CIP as described on Exhibit 1 and Exhibit 2. This option is recommended. Alternatively, the Aviation Authority Board could choose to delete/add/change the proposed projects and/or funding sources.

FISCAL IMPACT

The net increase to the CIP is \$31.2 million including \$10.9 million of added projects, \$25.9 million of net project budget adjustments, and \$5.6 million of deleted projects if all recommended adjustments are accepted. The proposed ORL CIP totals \$109 million and includes approximately \$95 million of grant revenues and approximately \$14 million of Authority funds.

RECOMMENDED ACTION

It is respectfully requested that the Capital Management Committee (1) recommend to the Aviation Authority Board to approve the update of the Orlando Executive Airport Fiscal Year 2024-2029 Capital Improvement Program as presented in the memorandum; (2) grant permission to the Chief Financial Officer to subsequently update the Capital Improvement Program, with no change to the overall CIP budget, based on a potential increase to the FAA federal share percentage and (3) authorize staff to update the Joint Annual Capital Improvement Program based on the update to the Fiscal Year 2024-2029 Capital Improvement Program.
