MEMORANDUM

TO: Members of the Aviation Authority

FROM: Davin D. Ruohomaki, Chairman, Construction Committee

DATE: June 15, 2022

ITEM DESCRIPTION

Recommendation of the Construction Committee to Approve Addendum No. 23, Amendment No. 3 to Addendum No. 12, and Guaranteed Maximum Price (GMP) Amendments for Multiple GMP Addenda (as contained herein) to the Construction Management at Risk (CM@R) Entity Services for the South Terminal C, Phase 1, Agreement with Hensel Phelps Construction for the Terminal C Program at the Orlando International Airport

BACKGROUND

The Terminal C, Phase 1, Program provides for a world-class domestic and international airport terminal building, consisting of a new airside terminal with up to 15 airline gates and a landside terminal with both secure and non-secure areas, and may include, but is not limited to all associated improvements and infrastructure required or related thereto, such as site work, roadways, aprons, runways, taxiways, other airfield work, utilities, landscaping, lighting, walkways, pedestrian bridges, expansion of the parking garage, a new and/or expanded chiller plant, aircraft loading bridges, and all interior design, such as concessions planning, ticketing, and security improvements, and baggage handling systems.

On March 19, 2017, the Aviation Authority's Finance Committee approved the award of a Construction Management at Risk (CM@R) Entity Services for South Terminal C, Phase 1, Agreement to Hensel Phelps Construction. Since the inception of the construction contracts in 2017, the Aviation Authority and its construction managers have worked together to keep the Program going through an international pandemic that required immediate implementation of new safety measures and protocols, while at its height of project activity and workforce, which allowed hundreds of individuals to remain employed through the uncertainty in the economy and daily life. In August 2020, the Aviation Authority reduced the Program by \$226.9 million, based upon concerns of revenue impacts caused by unprecedented passenger traffic reductions and, although this had a significant impact on the Program, the Program persevered without any major disputes.

The Aviation Authority and its construction managers continued to work together to keep the Program progressing through the economic impact of the pandemic, including labor shortages, high inflation, and supply chain issues. In April 2022, the construction managers requested a time extension and related costs to extend the schedule. The Aviation Authority publicly announced its intention to commence airline operations at Terminal C in September 2022 and requested updated construction schedules to accommodate the plan for commencement of operations. Consistent with the spirit of cooperation and perseverance demonstrated throughout the course of the design and construction phases of the various projects, and as the Program nears completion, the Aviation Authority and the construction managers now desire to resolve all issues between them amicably for an increase in the contract value of approximately 1.1%.

To date, over \$500 million has been paid to certified Minority and Women Business Enterprise (MWBE), Local Developing Business (LDB)/Veteran Business Enterprise (VBE), and Disadvantaged Business Enterprise (DBE) firms, under the Construction Management at Risk Agreements for this Program (\$281.9 million under Turner-Kiewit Joint Venture and \$218.7 million under Hensel Phelps Construction).

ISSUES

The Terminal C Program Team, in coordination with Hensel Phelps Construction, has reviewed the current financial status and progress of the work on multiple GMPs awarded as part of the Terminal C Program, and negotiated a resolution of all requests for costs, time and all other issues that requires multiple GMP Amendments.

This Agreement with Hensel Phelps Construction includes twenty-two Contract Addenda for various projects and project components of the overall South Terminal C (STC) Programs, known now as Terminal C, with a total current contract value of \$684,159,890.14. Now that the Terminal C Program is nearing Substantial Completion for the Airside Concourse and related projects, the Terminal C Program Team recommends resolution of all requests for time, costs, and all other issues that were or could have been raised by either party for the following amounts:

GMP	Amount
GMP No. 6-S.1 (BP No. S00143) (Addendum No. 8)	(\$ 167,718.44)

GMP No. 16-S.6 (BP No. S00189) (Addendum No. 21)	\$1,274,233.17
TOTAL	\$7,794,173.83

As proposed, Addendum No. 23 also includes a proposed Amendment No. 3 to Addendum No. 12 which will extend the Substantial Completion date for each GMP to June 17, 2022, based upon issuance of a Certificate of Completion by the City of Orlando, include Liquidated Damages in the amount of \$52,000 per day for failure to achieve a Temporary Certificate of Completion ("TCO") by July 18, 2022, (which is the same date as the Landside Terminal CM@R) and includes \$10,000 per day for failure to achieve Final Completion by September 30, 2022.

Hensel Phelps Construction is committed to the established small business goals of 20% MWBE and 4% LDB/VBE participation for Construction Services. The estimated cumulative participation for Construction Services per GMP is as follows:

Project	Estimated GMP Cumulative Goals
GMP No. 6-S.1 (BP No. S00143)	23% MWBE 4% MWBE/VBE
