Re: Request for Approval of an Addendum to the Continuing Civil Engineering Services Agreement with C&S Engineering, Inc. for Design and Construction Administration Services for W-S00151 Terminal C Design and Project Oversight Services at Orlando International Airport

Consultant's proposal, dated February 12, 2024, is to provide services for Design and Construction Administration for two sets of double doors located on both the Airside and the Landside of Terminal C. These modifications will require associated architectural modifications and the installation of door hold-opens that are tied to the Fire Alarm System. These doors receive a lot of use and become damaged as a result. Providing full swing capability and hold opens will protect the doors, provide more efficient operational use and will keep the egress corridors code compliant.

If approved, these services would be effective on the date of Construction Committee approval.

REIMBURSABLE EXPENSES

NO REIMBURSEABLE EXPENSES EXPECTED FOR THIS SCOPE

A complete breakdown of estimated reimbursable expenses, if any, which will be compensated on a not to exceed reimbursable basis, shall be included in this section. The Consultant may use any format for this breakdown, provided that it clearly defines the basis for the not to exceed amount. A breakdown of each subconsultant's expenses is also required.

MEMORANDUM

TO: Members of the Construction Committee

FROM: Edelis Molina, Manager Small Business Programs

DATE: February 27, 2024

RE: Request for Approval of an Addendum to the Continuing Civil Engineering Services Agreement with C&S Engineers, Inc. for Design and Construction Administration Services for W-S00151 Terminal C Design and Project Oversight Services, Orlando International Airport

We have reviewed the qualifications of the subject contract's MWBE/LDB/VBE specifications and determined that, due to the limited and specialized scope of the services to be provided, C&S Engineers, Inc. does not propose small business participation on this addendum.

Our analysis indicates that C&S Engineers, Inc. is eligible for award of the subject addendum.
