MEMORANDUM

ITEM DESCRIPTION

Request for Approval of an Addendum to the Continuing Program and Project Management Services Agreement with PSA Constructors, Inc. dba PSA Management, Inc. for Construction Phase OAR Services for V-S00055 Terminal C Enhancements Program – FIS Pier Mode LED’s, ACS and Door Improvements at the Orlando International Airport

BACKGROUND

On 05/18/2022 Aviation Authority Board approved the Continuing Program and Project Management Services Agreement with PSA Constructors, Inc. dba PSA Management, Inc. This project includes FIS Pier Mode LEDs and miscellaneous door improvements such as but not limited to Commissary doors and Employee Screening door improvements with hold-opens tied to the fire alarm system and associated hardware at the Orlando International Airport.

ISSUES

Consultants’ proposal dated May 5, 2024, is to provide construction phase OAR services for the above referenced project. The Commissary and Employee Checkpoint doors are high use doors which receive a lot of damage during operations. By providing hold-opens tied to the fire alarm system, the doors can remain in the open position during heavy use periods of the day. The FIS Pier Mode LED Indicator lights were requested in the international corridor on the Airside by Customs and Border Protection to provide a visual confirmation if the gate is in the domestic or international position. These indicator lights are already in use on Level 2.

If approved, services will be effective the date of Construction Committee approval.
