The selected general consultant will be prohibited from providing preparation of construction documents, and Owner's Authorized Representative (OAR) Services for the Aviation Authority, and shall be precluded from submitting bids or proposals for any such services to the Aviation Authority.

## ISSUES

Consultant's proposal, dated February 29, 2024, is to assist the Aviation Authority Airline Relations department with miscellaneous support services on an as-needed basis. These services may relate to, but not necessarily be limited to professional consulting services for: the establishment of passenger demand including daily and hourly peak passenger demand, aircraft gate allocation simulation, the review of existing processor performance and the establishment of facility requirements associated with passenger demand, the formulation of terminal improvement plans to meet operational requirements associated with future passenger demand, the preparation of aircraft parking concept plans, research and identification of best practices related

to the management of common use facilities at airports, formulation of common use priorities and framework for the management of common use facilities, etc.

If approved, these services would be effective the date of Procurement Committee Approval.

The cumulative contract value of all addenda/amendments since the last approval by the Aviation Authority Board for the General Consulting Services Agreement with Ricondo and Associates, Inc. does Not exceed the \$250,000 threshold; thus, this agenda item does not require Board approval.

RE: Proposal for Fiscal Year (FY) 2024 On-Call Support Services for the Airline Relations Department at the Orlando International Airport (MCO)

Dear Ms. Chin:

Ricondo & Associates, Inc. (Ricondo) appreciates the opportunity to submit this proposal to assist the Greater Orlando Aviation Authority (Aviation Authority) Airline Relations department with miscellaneous support services at the Orlando International Airport (MCO) on an as-needed basis, as requested by the Aviation Authority.

These services may relate to, but not necessarily be limited to professional consulting services for:

- The establishment of passenger demand including daily and hourly peak passenger demand.
- Aircraft gate allocation simulation (i.e., development of ramp charts).
- The review of existing processor performance and the establishment of facility requirements associated with passenger demand including:
  - The simulation of facility performance using CAST© computer modeling. This would include the prediction of average passengers processing times, passenger flows, queue lengths, and anticipated performance and hourly passenger throughputs based on existing facility configurations.
  - The preparation of video clips to illustrate passenger movements and queue build-ups resulting from existing lane configurations/queue areas.
- The formulation of terminal improvement plans to meet operational requirements associated with future passenger demand.
- The preparation of aircraft parking concept plans.
- Aircraft and vehicle simulation modeling.
- Research and identification of best practices related to the management of common use facilities at airports. This may include various outreach activities such as the preparation of surveys to collect perspectives on the implementation, operation, and maintenance of common use facilities.
- Formulation of common use priorities and framework for the management of common use facilities.

- Review of processes and standards for new passenger processing systems or equipment (e.g., self-bag drop systems).
- Review of passenger processes based on the implementation of new technology and/or standards (e.g., implementation of biometric technology).
- As requested by GOAA staff, project meetings attendance.

**Schedule**

The proposed services are for Fiscal Year 2024.

**Professional Fees**

While this proposal has been developed with an attempt to understand the desired services as noted above, the actual hours of effort could vary based on the number of tasks to be completed in FY 2024 and complexity. This proposal is predicated on the following labor hour assumptions for the on-call support services:

- Senior Director: 30 hours
- Manager: 120 hours
- Senior Consultant: 300 hours

For the review of the concessionaire proposal packages, this proposal is predicated on the following labor. As noted in **Table 1**, the Not to Exceed (NTE) fee amount for the proposed services based on the aforementioned assumptions is \$58,250. There is no Ricondo expense budget for this task.

TABLE 1 – PROFESSIONAL FEES

## MEMORANDUM

**TO:** Members of the Procurement Committee

**FROM:** Edelis Molina, Manager Small Business Programs

**DATE:** March 12, 2024

**RE:** Request for Approval of an Addendum to the General Consulting Services Agreement with Ricondo & Associates, Inc. for Fiscal Year 2024 On-Call Support Services for the Airline Relations Department at the Orlando International Airport

We have reviewed the qualifications of the subject contract's MWBE/LDB/VBE specifications and have determined that Ricondo & Associates, Inc. does not propose small business participation on this addendum due to the on-call nature of the services to be provided.

Our analysis indicates that Ricondo & Associates, Inc. is eligible for award of the subject addendum.
