MEMORANDUM

TO: Members of the Procurement Committee

FROM: Brad Friel, Sr. Vice President of Multi-Modal Planning and Environmental

DATE: June 25, 2024

ITEM DESCRIPTION

Request for Approval of an Addendum to the General Consulting Services Agreement with Ricondo & Associates, Inc. for an Economic Impact Study of Advanced Air Mobility at Orlando International Airport (MCO).

BACKGROUND

In December 2020, Ricondo & Associates, Inc. was selected by the Aviation Authority Board through a competitive award process to provide General Consulting Services. Tasks are awarded on an as-needed or annual basis.

This no-cost base agreement established the negotiated hourly rates. The services provided as part of this agreement may include advising and supporting the Aviation Authority through assessments, studies, master planning, concept development, and preparation of design/build criteria packages, extension of staff, and other efforts as assigned for the development, management, and operation of the existing and future facilities. The services may also include interfacing with the Aviation Authority's committees and the Aviation Authority's departments, and coordinating and providing documentation required by federal, state, and local agencies including the Federal Aviation Administration (FAA); Transportation Security Administration (TSA); Florida Department of Transportation (FDOT); the Orlando Utilities Commission (OUC); the Division of Strategic Business Development; City of Orlando; Orange County, Florida; and, other agencies as required. The selected general consultant will be prohibited from providing preparation of construction documents, and Owner's Authorized Representative (OAR) Services for the Aviation Authority, and shall be precluded from submitting bids or proposals for any such services to the Aviation Authority.

ISSUES

The Consultant's proposal, dated March 25, 2024, is to conduct an economic impact study of advanced air mobility within the East Airfield development area. In conducting economic impact studies, Ricondo employs general methodologies and definitions of economic impact as described by the Federal Aviation Administration (FAA). The FAA states that economic impacts measure the importance of aviation as an industry in terms of the employment it provides and the goods and services it consumes. In addition, economic impacts are the beneficial results that help to generate and sustain public support for airports.

The cumulative contract value of all addenda/amendments since the last approval by the Aviation Authority Board for the General Consulting Services Agreement with Ricondo & Associates does not exceed the \$250,000 threshold; thus, this agenda item does not require Board approval.

Upon completion of all required documentation, services will be effective no earlier than the Procurement Committee approval.

RE: East Airfield Vertiport Development at Orlando International Airport (MCO)
Proposal for Economic Impact Study

Dear Mr. Friel:

Ricondo & Associates, Inc. (Ricondo) appreciates the opportunity to submit this proposal to prepare an economic impact analysis for the Greater Orlando Aviation Authority (the Aviation Authority). Services to be completed include the identification of economic impacts associated with development of vertiport facilities at Orlando International Airport (MCO) on the surrounding community.

Below is a description of the anticipated services to be provided.

Economic Impact Overview

In conducting economic impact studies, Ricondo employs general methodologies and definitions of economic impact as described by the Federal Aviation Administration (FAA). The FAA states that economic impacts measure the importance of aviation as an industry in terms of the employment it provides and the goods and services it consumes. In addition, economic impacts are the beneficial results that help to generate and sustain public support for airports. The following definitions of economic impact will be used in this study:

- **Direct Impacts** are consequences of economic activities carried out at the Airport by various tenants having a direct involvement in aviation (e.g., fixed base operators, airport management, etc.). Employing labor, purchasing locally produced goods and services, paying taxes, and contracting for capital improvements are good examples of activities at the Airport that generate these direct impacts. Strictly speaking, direct impacts represent economic activities that would not have occurred in the absence of the proposed vertiport facilities to be located on the east airfield.
- **Indirect Impacts** derive primarily from off-site economic activities that are partially attributable to the Airport. For these analyses, these indirect impacts will be measured by local expenditure patterns by air traveler visitors utilizing the proposed vertiport facilities.
- **Induced Impacts** are the multiplier effects of the direct and indirect impacts. These effects are the increases in employment and expenditures created by successive rounds of local spending and hiring.

Because standard economic impact studies do not project future economic impact, additional assumptions and varying methodologies will be necessary to project future economic impact of the proposed vertiport facilities and associated development. .

Measuring Economic Impact of East Airfield Vertiport Development in CY 2028

Ricondo will collect all relevant data necessary to measure future economic impact of the proposed East Airfield vertiport development. To estimate the direct economic impacts of East Airfield vertiport development, it is anticipated that assumptions for the following will be made based on information to be provided by the Aviation Authority (or in the absence of information, assumptions will be made by Ricondo in collaboration with the Aviation Authority staff) for the following information for calendar year (CY) 2028¹:

- Employment (full-time equivalent)
- Payroll
- Gross Sales
- Taxes (property, sales, and employee)
- Capital Improvements (three years/average)
- Other Operating Expenses (total less payroll)

Considering there are many unknown associated with the proposed project, Ricondo will work closely with the Aviation Authority's staff to refine the assumptions to be used to calculate direct and indirect impacts.

The estimated direct and indirect impacts will represent the primary impacts associated with the proposed East Airfield vertiport development and the multipliers used in this study will be derived from the US Bureau of Economic Analysis (BEA) Regional Input–Output Modeling System (RIMS) regional economic model. Estimated impacts associated with visitors utilizing the proposed vertiport facilities will **not** be included in the analysis.

Deliverables

Ricondo will prepare a draft and final Economic Impact Analysis Report (in Word and PDF format) containing the results of the study. The report will include the following:

- Purpose of the study
- Profile of East Airfield vertiport development
- Identification of assumptions
- Results of the study, including metrics for direct and induced jobs, payroll, and output
- Relevant tables, maps, charts, and exhibits illustrating the key findings

¹ The analysis year is currently anticipated to be CY 2028, when Phase II of the proposed project is estimated to be completed.

In addition, Ricondo will summarize the findings of the analyses in a Microsoft PowerPoint presentation format.

Meetings

Throughout the study, Ricondo anticipates participating in up to two (2) virtual meetings and one (1) meeting at the Airport. These meetings will provide an opportunity to discuss/review the assumptions to be used to develop the economic impact model, as well as the outcomes of the economic impact analysis. Ricondo will be responsible for the preparation of the meeting materials. This meeting will include the participation of up to three (3) Ricondo staff.

Schedule

The proposed services will be completed within 90 calendar days of receipt of Notice to Proceed (NTP).

Professional Fees

As noted in the attached **Table 1**, the Not to Exceed (NTE) professional fee amount for the proposed services is \$48,443.

TRUTH IN NEGOTIATION CERTIFICATION

The Consultant hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The Consultant further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Aviation Authority determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of final billing or acceptance of the work by the Aviation Authority, whichever is later.
