Recommendation of the Construction Committee to Approve Addendum No. 32, Amendment No. 3 to Addendum No. 12, and Guaranteed Maximum Price (GMP) Amendments for Multiple GMP Addenda (as contained herein) to the Construction Management at Risk (CM@R) Entity Services for the South Terminal C, Phase 1, Agreement with Turner-Kiewit Joint Venture for the Terminal C Program at the Orlando International Airport

BACKGROUND

The Terminal C, Phase 1, Program provides for a world-class domestic and international airport terminal building, consisting of a new airside terminal with up to 15 airline gates and a landside terminal with both secure and non-secure areas, and may include, but is not limited to all associated improvements and infrastructure required or related thereto, such as site work, roadways, aprons, runways, taxiways, other airfield work, utilities, landscaping, lighting, walkways, pedestrian bridges, expansion of the parking garage, a new and/or expanded chiller plant, aircraft loading bridges, and all interior design, such as concessions planning, ticketing, and security improvements, and baggage handling systems.

Since the inception of the construction contracts in 2017, the Aviation Authority and its construction managers have worked together to keep the Program going through an international pandemic that required immediate implementation of new safety measures and protocols, while at its height of project activity and workforce, which allowed hundreds of individuals to remain employed through the uncertainty in the economy and daily life. In August 2020, the Aviation Authority reduced the Program by \$226.9 million, based upon concerns of revenue impacts caused by unprecedented passenger traffic reductions and, although this had a significant impact on the Program, the Program persevered without any major disputes.

The Aviation Authority and its construction managers continued to work together to keep the Program progressing through the economic impact of the pandemic, including labor shortages, high inflation, and supply chain issues. In April 2022, the construction managers requested a time extension and related costs to extend the schedule. The Aviation Authority publicly announced its intention to commence airline operations at Terminal C in September 2022 and requested updated construction schedules to accommodate the plan for commencement of operations. Consistent with the spirit of cooperation and perseverance demonstrated throughout the course of the design and construction phases of the various projects, and as the Program nears completion, the Aviation Authority and the construction managers now desire to resolve all issues between them amicably for an increase in the contract value of approximately 1.1%.

To date, over \$500 million has been paid to certified Minority and Women Business Enterprise (MWBE), Local Developing Business (LDB)/Veteran Business Enterprise (VBE), and Disadvantaged Business Enterprise (DBE) firms, under the Construction Management at Risk Agreements for this Program (\$281.9 million under Turner-Kiewit Joint Venture and \$218.7 million under Hensel Phelps Construction).
