RE: Respondents to the Request for Statements of Qualifications (SOQ) for W-00501, Airside Restroom Refurbishment (Design/Build) at the Orlando International Airport

Dear Proposers:

On April 9, 2024, the Procurement Committee met to consider the respondents to the above-referenced advertisement.

The Procurement Committee voted to direct staff to re-advertise for the needed services. This readvertisement is scheduled to occur on or after April 21, 2024. The mandatory minimum requirements will be revised to less restrictive requirements. The readvertisement will be posted on the Aviation Authority's website and a notification will be broadcast via OpenGov.

It is understood there is significant time and effort involved in preparing a SOQ. This readvertisement will not require the current proposers to re-submit a SOQ. For those proposers that are satisfied with its submission as-is, there is no need to re-submit. The Aviation Authority will consider all current SOQs on file for W-00501 if a Proposer chooses not to re-submit. However, at its sole discretion, Proposers are encouraged to re-submit a revised SOQ (for example, to add projects or fix errors). Proposers should take special note that when a mandatory minimum requirement includes a minimum project value, proposers must disclose the project values to be considered.

Thank you for your interest in this procurement with the Aviation Authority.

Sincerely,

Deborah J. McKeown
Assistant Vice President, Project Controls
